PX2-CONVEYOR

Material Displacement

Whether you're in manufacturing, agriculture, or food processing, this is the conveyor that keeps your materials moving forward.

PX2-SHARK

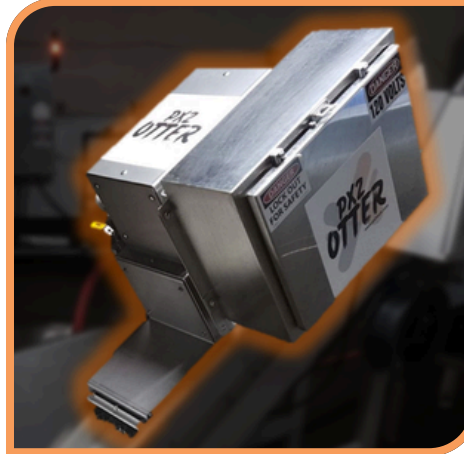

Equipment Washer

Designed for handling aquaculture bags. A powerful machine offering high-pressure cleaning from 300 to 3000 PSI.

PX2-OTTER

Product Washer

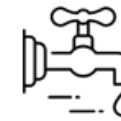

Delivers clean product directly to your vision grading line, boosting grading efficiency and reducing manual handling.

PX2-SPATTER

Spat Collector

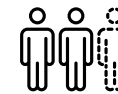

Removes spat gently and faster than manual methods. Provides reliable and efficient performance with minimal maintenance.

Water Conservation:
Uses less fresh water than traditional washers, reducing costs.

Easy and low Maintenance:
Designed for minimal maintenance and downtime.

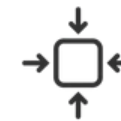

Address Labor Shortages:
Automates key tasks to maintain productivity with fewer workers.

Scalable to Your Needs:
Adjusts easily to fit your specific setup and production scale.

Stainless Steel Construction:
Ensures easy cleaning and long-lasting use.

Compact and Mobile:
Space-saving design that's easy to relocate as needed.

SAVE TIME & MONEY!!!!
